As a Master of Science in Software Engineering student with 2 years of experience as an "Application Development Associate," I bring expertise in Java and Web application development. My skills include cross-team collaboration, analytical thinking, and technical proficiency. Specializing in Software and Cloud Architecture, Advanced Software Engineering, Web development, UI/UX, Product Design, and Mobile application development, I am eager to advance my career as a Principal Software Engineer. Currently seeking challenging opportunities to apply my knowledge and skills in a full-time role or internship.
